# Are you a member?

When you are a member of SCTE, you are a member of the premier technical organization serving the cable telecommunications industry. Individuals from operators and vendors belong to our network of professionals and take advantage of professional development programs, technical standards, certifications and relevant engineering and applied science information.

SCTE members represent all levels of the industry. From "boots to suits," the Society has a wide array of benefits to add value for professionals in each of these segments.

SCTE has resources specifically designed to help field-level employees in their every day job. The Society understands that your time is limited and has developed job aids and technical tools that you can use when you need them, on your own time.

Beyond technical benefits, SCTE also provides you with numerous opportunities to network with your peers through local events and competitions.

## *Technical Tools:*

SCTE Tech Tips – Online resource for relevant technical subjects/concepts to help make your job easier

SCTE Primer Series – Short online presentations that help to build on your knowledge of the technology in the industry

SCTE LiveLearning Webinar™ – Interactive monthly webinars on issues you deal with daily.

SCTE InfoScope® - a searchable database of nearly 1,000 technical resources to provide you with troubleshooting assistance.

## *Networking Tools:*

SCTE Chapters – Local networking and technical training opportunities designed specifically for you

SCTE-Lists – An opportunity to connect with industry experts to comment on technology issues and solutions

Cable-Tec Games – *A competition to allow you to showcase your technical ability in several tasks you complete everyday*

## *Career Tools:*

Certification Programs – Programs designed to showcase your technical knowledge and improve your career opportunities

SCTE Foundation Grants – Financial assistance to help you gain the technical training you need to be successful

Technical Courses – In-depth training courses on the latest technologies that you will be working with

# TRAINING RESOURCE

As the industry's applied science and technical leader, corporate trainers can depend on SCTE as a technical knowledge partner ready to enhance existing curriculum and improve expertise. The valuable technical information contained in SCTE's educational training courses and content from its resources can be integrated into corporate training programs as well as support a trainer's personal knowledge and skills development.

# POCKET GUIDES

SCTE partners with leading cable companies to create pocket guides which are handy references loaded with practical information on the latest cable telecommunications topics and are free electronically as PDF downloads for SCTE members. Printed copies of pocket guides are available through the SCTE bookstore. If your company or organization is interested in partnering on an SCTE Pocket Guide please contact the SCTE Marketing & Business Development Department.

*Leadership Coaching for the Cable Industry*

The SCTE Leadership Institute is designed enhance the careers of current and future leaders. Through partnerships with highly-regarded institutions and organizations, the SCTE Leadership Institute programs are able to leverage the best and brightest minds and educators both within and outside of the cable telecommunications industry.

## FHSU Degrees & Certificates

### Fort Hays State University

Fort Hays State University (FHSU) is a state, liberal and applied arts university established originally in 1902 in Kansas. FHSU has over 11,000 online and campus students. The FHSU Virtual College coordinates all distance learning and off-campus programs for the university. The Virtual College offers both asynchronous (anytime, anyplace) and synchronous (same time, different locations) learning.
