Cable-Tec Expo 2015:

New Orleans Ernest N. Morial Convention Center
 900 Convention Center Blvd. New Orleans, LA 70130

There will be over 375 exhibitors along with a variety of robust educational sessions, hands-on state-of-the-art exhibits and in-depth networking opportunities enable all levels of cable telecommunications technology experts from across the globe to obtain the essential resources of technical information crucial to their company goals during Cable-Tec Expo.

Executive and mid-level attendees from the industry's top operating companies attend Cable-Tec Expo and hundreds of the industry's most prominent technology companies showcase their services and technologies. 76% of operating attendees represent decision makers & key influencers. Nearly 40% of operating attendees comprise of executive-level to director/vice president positions.

SCTE Cable-Tec Expo® is the cable telecommunications engineering show of the year! Thousands of cable professionals annually seize the opportunity to discover and learn first-hand about the latest in cable telecommunications technology, products and services. For more than 30 years the industry has relied on Cable-Tec Expo to provide the most energizing, technical knowledge exchange of the year. Amidst energizing days full of learning, exchanging knowledge, and exploring technology exhibits, network with new and familiar industry colleagues at the multitude of breakfast, evening, and live cable challenge events Cable-Tec Expo has to offer.

Top 10 Reasons to Choose SCTE Training

1. **SCTE trains telecommunications professionals at all levels, from contractors and installers to senior level engineers, as well as all industry segments including operators, vendors and programmers**
2. **SCTE has been the industry's leading training organization for over 40 years**
3. **SCTE training courses are built on an unmatched understanding of technology and network infrastructure from an in-house technical training and development staff with decades of cable experience and a vast network of working groups consisting of the industry's technology experts and thought leaders**
4. **SCTE training is recognized as the benchmark for proving cable knowledge and is currently utilized by numerous operators as an internal path for promotion and career advancement**
5. **International telecommunications organizations have consistently relied on SCTE training as their foundation for future business growth and development because all SCTE training courses can be customized to fit the specific business requirements, understanding and strategies of any cable organization**
6. **SCTE offers numerous, convenient course delivery methods to fit telecommunication professionals schedules and learning styles**
7. **To date, SCTE training has helped professionals earn more than 10,000 SCTE certifications—the industry's premier technical certification**
8. **When compared to other industry training organizations, SCTE training courses provide cost-effective solutions that fit into any size budget**
9. **SCTE CCNA and CCENT preparation courses are the only Cisco Academy programs that offer cable-specific content**
10. **SCTE has established educational partnerships with colleges and universities where select SCTE Training Courses qualify for college credits applicable to certificate and degree programs.**
